Source: U.S. Census Bureau, Census 2000, special tabulation.

Internet release date: September 2002 Last Revised date: June 30, 2004

Note: Respondents who identified themselves as American Indian or Alaska Native were asked to report their enrolled or principal tribe. Therefore, tribal data in this data product reflect the written tribal entries reported on the questionnaire. Some of the entries (for example, Iroquois, Sioux, Colorado River, and Flathead) represent nations or reservations. The information on tribe is based on self-identification and includes federally- or state-recognized tribes, as well as bands and clans.

Notes:

Total persons in Column 1 include people who reported only one American Indian or Alaska Native tribe or who checked the American Indian or Alaska Native response category, but did not write-in a specified tribe. For example, a respondent who reported as Fort Sill Apache would be counted one time in the Fort Sill Apache data line, one time in the Total persons data line and one time in the Total tribes tallied data line.

Total persons in Column 2 include people who reported two or more American Indian or Alaska Native tribes. For example, a respondent who reported as both Fort Sill and Mescalero Apache would be counted one time in the Fort Sill Apache data line, once in the Mescalero Apache data line, but once in the Total Apache data line, one time in the Total persons data line, and twice in the Total tribes tallied data line.

Total persons in Column 3 include people who reported one American Indian or Alaska Native tribe, or who checked the American Indian or Alaska Native response category, but did not write-in a specified tribe, and who reported at least one other race. These races include White, Black or African American, Asian, Native Hawaiian and Other Pacific Islander, and Some other race. For example, a respondent who reported as both "White and American Indian and Alaska Native," and wrote in Fort Sill Apache, would be counted once each in the Fort Sill Apache data line, in the Total Apache data line, in the Total persons data line, and in the Total tribes tallied data line.

Total persons in Column 4 include people who reported two or more American Indian or Alaska Native tribes and at least one or more other races. For example, a respondent who reported as both Fort Sill Apache and Mescalero Apache and as "White and Black or African American American Indian or Alaska Native" would be counted in both the Fort Sill Apache and Mescalero Apache data lines once, counted in the Total Apache data line once, counted in the Total persons once, and counted twice in the Total tribes tallied data line.

Total persons in Column 5 include a tally of responses for people who reported one or more American Indian or Alaska Native tribe(s) and one or more races. For example, a respondent who reported as both Fort Sill Apache and Mescalero Apache and as "White **and** Black or African American **and** American Indian or Alaska Native" would be counted in both the Fort Sill and Mescalero data lines once, counted in the Total Apache data line once, counted in the Total persons dataline once, and counted twice in the Total tribes tallied data line.

¹ The number and percent for Total American Indian and Alaska Native tribes tallied do not add to the total American Indian and Alaska Native population. This is because respondents may have reported more than one tribe. This is a tally of the number of tribe(s) reported rather than the number of American Indian and Alaska Native respondents reporting a tribe.

² Includes respondents who wrote in the generic term "American Indian" or "Alaska Native" or "Alaska Indian."

³ Includes respondents who checked the "American Indian or Alaska Native" response category on the census questionnaire, and did not include a specific American Indian or Alaska Native tribe.

⁴ Includes respondents who wrote in a tribe not specified in the American and Alaska Native Tribal Detailed Classification List for Census 2000.
